

This guide outlines updating the Junxion Box from 1.6.x to the latest Junxion Platform using Single Click Update. For Junxion Boxes with firmware earlier than 1.6.01, please refer to instructions [here](#)* or contact Junxion Support for firmware update instructions.

Single Click Update

Important information: This update method requires the Junxion Box to be connected to the Internet for the entire update process.

1. Connect to the Device Manager using a compatible Internet browser.
2. Navigate to the 'Update' section of the Device Manager.
3. Select the "Single Click Update" radio button.
4. Click on the "Update Firmware" button.

The Junxion Box will automatically download and install the firmware update. When the update is complete, the Junxion Box will automatically reboot.

More Information

For more information about this process or for help updating a Junxion Box, refer to the contact information at: <http://www.junxion.com/support>.
